The event was very crowded with many visitors.All of the stage presentations and exhibits conveyed the importance of living life to the fullest, including the results of their
learning and practice so far, and the strength of the bonds between clubs. The bazaar, which offered udon noodles and
games, was also a huge success, and we were able to share a happy time with the smiles of everyone who visited, weaving
wonderful memories.We hope that this festival will bring vitality and connections to the local community, and further invigorate club and
community activities. Finally, we would like to express our sincere gratitude to the executive committee, local organizations,
clubs, schools, and other related parties who worked hard to plan, prepare, and hold the festival.The students from Hatsukaichi Junior
High School also did their best!
